1.1. Aims & Scope

Genetics of Aquatic Organisms (GenAqua), publishing biannually (July & December), is free open access and a peer reviewed international and interdisciplinary journal aiming to serve as a platform for researchers to explore enhanced exchange of scientific literature in the field of genetics related to aquatic organisms.

Gen Aqua aims to address research and needs of working areas mainly, genetics, biotechnology, and biodiversity. Besides, population genetics, molecular genetics, phylogenetic, high-throughput image analysis, computational genomics, proteomics, analysis of gene expression and regulation, comparative genomics, computational proteomics, selective breeding, polyploidy, gynogenesis, androgenesis, reversal, gene transfer, cryopreservation are within the scope.

The Journal publishes English language original research papers, critical review articles, short papers and technical notes on applied or scientific research relevant to freshwater, brackish and marine environments.

1.2. Open access

No page charges are collected. There is no payment at any stage of the article publishing process.

4. GUIDE FOR AUTHORS

4.1. Paper categories

Research Papers, which are, not have been previously submitted and published elsewhere should declare the results of original research. Articles are expected to report novel information not just to confirm previously published works Besides, research papers must not exceed **25 manuscript pages** including tables and figures.

Short Papers are used to publish results which represent a major finding or new discovery not including preliminary results which should therefore be published quickly. Papers must contain sufficient data to establish that the research has achieved reliable and significant results.

Technical Notes should report new methods and/or procedures for research methodology.

Short papers and technical notes, which are results of brief but significant work, must not exceed **10 manuscript pages** including tables and figures.

Review Articles: **Only invited** reviews should be submitted. If you appreciate that your review is remarkable, you can send the abstract and a cover letter indicating the importance of the review to info@genaquaa.org. Review articles solicited by the editorial board, should not exceed **50 manuscript pages** including tables and figures.

4.2. Preparation of Manuscripts for Submission

4.2.1. Main Document (not including names and addresses)

Main document is usually divided into following sections:

- ✓ Title of manuscript
- ✓ Number of pages
- ✓ Number of Tables

- ✓ Number of Figures
- ✓ Abstract with key words:
 - Abstract should not exceed;
 - 200 words in research papers,
 - 300 words in reviews, and
 - 100 words in short reports and technical notes.
 - Three to five key words (not existing in the title) should be listed below the abstract.
 - The abstract must be in only English.
- ✓ Introduction;
- ✓ Materials & Methods;
- ✓ Results & Discussion;
- ✓ Conclusion
- ✓ Acknowledgements;
- ✓ References
- ✓ Tables
- ✓ Figures

4.2.1.1. References

The 6 th Edition of APA Citation must be used. You can use the guide for referencing by [clicking this link](#)

4.2.1.2. Acknowledgements

You are requested to identify who provided financial support for the conduct of the research.

4.2.2. Title Page

- ✓ Authors' full names, with an asterisk after the name of the corresponding author
- ✓ Authors' affiliations and postal addresses, including e-mail address of the corresponding author
- ✓ [ORCID](#) Links of the authors must be written.
- ✓ Phone numbers of corresponding author

4.2.3. Tables

Number tables consecutively in Arabic numerals (1, 2, 3, ...), and type each table on a separate sheet. Title of the table should be written on top of the table. Descriptions about table items should be placed at the bottom of the table with an asterisk. Tables must be in regular format of MS Word (not figure or manually written)

4.2.4. Figures

Number Figures consecutively in Arabic numerals (1, 2, 3, ...), and type each Figure on a separate sheet. Title of the figure and descriptions about figure items should be written on bottom of the figure.

- ✓ Tables and Figures might be cited in the text consecutively.
- ✓ Tables and Figures should be given in the end of the main document. Also you need to upload them via online system.
- ✓ Figures must have a resolution of 300 dpi.

4.2.5. Copyright Release Form

During the submission step, authors will be directed to download and complete a "[Copyright Release Form](#)" which must be signed by **corresponding author**.

The author(s) warrant(s) that:

- ✓ The manuscript submitted is his/her/their own original work;
- ✓ All authors participated in the work in a substantive way and are prepared to take public responsibility for the work;
- ✓ All authors have seen and approved the manuscript as submitted;
- ✓ The manuscript has not been published and is not being submitted or considered for publication elsewhere;
- ✓ The text, illustrations, and any other materials included in the manuscript do not infringe upon any existing copyright

or other rights of anyone.

- ✓ GenAqua has unlimited, worldwide, irrevocable royalty-free, right to publish, use, distribute, license, transmit, display, exhibit, record, store, translate, digitize, broadcast, reproduce and archive, in any format or medium, whether now known or hereafter developed.

4.3. Reviewer Suggestion

Please submit the names and institutional e-mail addresses of at least 3 potential reviewers to the *Cover Letter* section in Online Submission system.

Authors in GenAqua may be asked to be reviewer in the future.

4.3.1. Peer-Review

Double-blind review system with at least two reviewers is used to evaluate the manuscripts for publication. Editors have the right to reject the manuscripts without peer-review when the manuscript is:

- a) on a topic outside the scope of the Journal,
- b) lacking technical merit,
- c) exhibiting narrow regional scope and significance,
- d) presenting conflicting results,
- e) is poorly written.
- f) when there are too many manuscripts in certain periods, editors have right to reject the papers without peer-review

Editors are responsible for the final decision regarding acceptance or rejection of articles.

4.3.2. Submission checklist

Please carefully check this list no to lose your time:

- ✓ Copyright Release Form is enclosed, completed and signed by the corresponding author (in pdf or jpeg format)
- ✓ English Title, Abstract and Key Words are given
- ✓ Abstract does not exceed **200 words** (300 words in reviews, and 100 words in short reports and technical notes.)
- ✓ Three to five key words (not presented in the title) are listed below the abstract.
- ✓ Spell check and grammar check have been completed
- ✓ Main document is **1,5 spaced** throughout and with 25 mm margins including abstract, introduction, materials and methods, results, discussion, and references
- ✓ Font size is **12 pt** and double spaced (Times New Roman) throughout manuscript
- ✓ All abbreviations and acronyms are defined at first mention
- ✓ **Main document does not contain names and institutions**
- ✓ **Title page contains names of authors are written in full (NOT abbreviated)**
- ✓ Title page contains author address(es) given in English
- ✓ **ORCID** links are added to the title page.
- ✓ The percent sign appears without a space after the number (e.g., 53%) and not before (e.g., NOT %53)
- ✓ Decimals are indicated by decimal points and not by commas throughout the paper (e.g., 10.24 NOT 10,24)
- ✓ et al. are italic (*et al.*)
- ✓ Latin terms such as species' names are italic (e.g., *Oncorhynchus mykiss*)
- ✓ Degree symbols are inserted from the Symbols menu and are not superscript letter 'o' or number '0'
- ✓ Multiplication symbol is used (×) and not small "x" letters
- ✓ Spaces are inserted between numbers and units (e.g. 3 kg) and between numbers and mathematical symbols (+, ?, ×, =, <, >) but not between numbers and percent symbols (e.g. 45%)
- ✓ Significant level symbol; 'P< or P>' is italic and upper case
- ✓ High quality figures are enclosed (if any)
- ✓ Figures are referred to consecutively in the paper (if any)
- ✓ Tables are referred to consecutively in the paper (if any)
- ✓ Unpublished references (project reports, etc.) are not referred to or cited
- ✓ References are listed in alphabetical order in the style shown in the instructions
- ✓ References are cited in the text according to **APA-6**
- ✓ **DOI Links** of references are **indicated** (if available)
- ✓ Journal titles in the reference list are written in the full names (NOT abridgment)
- ✓ All **pages** and **lines** are **numbered**
- ✓ Sections are **not** numbered
- ✓ Tables and figures, if applicable, must be included in the main document. They are also uploaded separately via

system.

- ✓ **Reviewer suggestions** are written to the **cover letter**

4.4. Changes to authorship

Authors are expected to consider carefully the list and order of authors **before** submitting their manuscript and provide the definitive list of authors at the time of the original submission. Any addition, deletion or rearrangement of author names in the authorship list should be made only **before** the manuscript has been **accepted** and only if approved by the journal Editor. To request such a change, the Editor must receive the following from the **corresponding author**: (a) the reason for the change in author list and (b) written confirmation (e-mail, letter) from all authors that they agree with the addition, removal or rearrangement. In the case of addition or removal of authors, this includes confirmation from the author being added or removed.

4.5. After Acceptance

Once your manuscript is accepted for publishing in GenAqua, you are going to be sent an e-mail which indicates the volume of your manuscript. Track your manuscript via the given link in the mail and correct proof to finalize your published paper.

<http://www.genaqua.org/content.php?id=3>

Authors should send their corrections on pdf file published on website by e-mail to info@genaqua.org

4.5.1. Sharing in Social Media

You are going to be asked to send 3 photographs and 1 video (~60 sec.) about your study to share on our social media accounts in order to increase your paper's publicity. Please send your twitter username.

The preferable format for video clips is MP4 (maximum file size is up to 200 MB), and for images either JPEG, GIF or PNG (maximum file size per image is 5MB, and 3MB for animated gifs)."

4.5.2. Author rights

As an author you (or your employer or institution) have certain rights to reuse your work with permission.

[Please click to download the "Permission Request Form"](#).
